

Jeep'e ki yay

Going on a road trip is a great way to bond with friends and family. You travel all the while having conversations about everything and nothing.

Adventure is everywhere and can be accessed without the burning of fuels often it is only a matter of gathering your best friends together and getting out of the door. This is what the Jeep'e Ki Yay project is all about.

The car is made from roughly 20 VELUX window frames and reclaimed wood which used to be a playhouse in Hareskovby.

If you like adventures in your own backyard, local kindergarten or playground we are still looking for a home for the car after this exhibition. Please reach out to us on iwouldlikeawoodenjeep@gmail.com. You need to be able to pick the car up on Sunday around noon.

Enjoy the ride
