

**I.D. CROZZ II extends the range of the I.D. Family
New zero-emission SUV set to launch in 2020**

Volkswagen's electric campaign:

I.D. and I.D. CROZZ will be launched in 2020, the I.D. BUZZ in 2022

Premiere at the IAA: Volkswagen presents the I.D. CROZZ II

I.D.¹ CROZZ for 2020

The zero-emission SUV from Volkswagen

- **Debut of the concept car at Auto Shanghai:**
Volkswagen first presented the I.D. CROZZ in April 2017.
- **Premiere of the new enhanced version at the IAA:**
The I.D. CROZZ II offers outlook on a production model in September 2017.
- **Driving range similar to a powerful petrol car:**
225 kW¹ power output with two motors; range of up to 500 km.
- **Better air inside than outside with CleanAir system:**
Ventilation system ensures top air quality on-board.
- **Next generation of 4MOTION:**
Electric all-wheel drive with 'electric propshaft'.
