

The case for coverage

Be sure your business, customers and home are protected.

More than 50% of businesses are home-based

Homeowners only covers \$2,500 of business property

\$0 liability | \$0 loss of data | \$0 loss of income

Rightsize your in-home business coverage

Find the best option for you.

You may consider adding a homeowners policy endorsement if you:

- Plan to have \$4,999 or less worth of business property kept at your home-based business location.
- Don't invite customers to your home-based business location.
- Only have \$750 of personal property intended for business use outside your home.

You may consider a business policy if you:

- Provide services directly to customers while in your home or at another location. Businesses such as tax preparation or hair services, etc. may require additional specialized liability coverage.
- Plan to have \$5,000 or more of business property used for business or kept at your home-based business location.

Don't forget the car

Make sure your home-based business vehicles are rated for business use.
