businesses launched with support from The Centre for Entrepreneurship at Mohawk College.

1,649

participants through The Centre for Entrepreneurship's programs and services.

Meeting workforce needs through innovative educational programs and training solutions.

Whether experiencing a workforce problem, staffing challenges, or addressing a skills gap, Mohawk College's Marinucci Centre for Professional Advancement and Continuing Studies has a team of experts who customize training solutions to respond to the unique industry needs. For those launching a new business, the college's Centre for Entrepreneurship supports new business owners in getting their idea off the ground and connected with their customers.

Marinucci Centre for Professional Advancement and Continuing Studies

In 2024, the Marinucci Family Foundation generously donated \$1 million to support workforce development at the college. The centre offers employers innovative education solutions to support workforce development locally, nationally and even globally, including a partnership in Guyana delivering accelerated general sonography training with their Ministry of Health.

Centre for Entrepreneurship

The Centre for Entrepreneurship offers a range of services and support for entrepreneurs, intrapreneurs and small businesses. The centre develops and manages programs that impact Mohawk College students, alumni and the community.
