## 53:1

### Return on Investment

#### **Irreplaceable National Resource**

Inlike any other nonprofit, government agency, or corporation, Civil Air Patrol operates the world's largest fleet of single-engine piston aircraft, ready to deploy in every state and territory.

Returning \$3 in value for every \$1 spent, CAP provides unequaled value to our communities, states, and nation as a force for good.

A CAP aircrew is deployed after a natural disaster to capture images used for damage assessment by various agencies.

#### Versatile, Flexible, Mobile, Air and Ground Fleet

ivil Air Patrol has a diverse aircraft fleet, special missions equipment, highly trained ground teams and aircrews, and a robust communications network to be deployed anywhere in the U.S. to assist local, state, and federal agencies in need.

## 1,000+ vehicles

CAP's fleet of piston-powered aircraft operates for a fraction of the cost of military aircraft.

#### Low-Cost, High-Value Training Partner

ivil Air Patrol fills a need no other training partner can match. Operating aircraft for only \$170 per flight hour makes CAP an unrivaled lowcost provider to help the Air Force achieve its pilot training objectives.

> Twice annually, CAP hosts a Rated Preparatory Program to help active-duty airmen like these prepare to enter undergraduate pilot training.

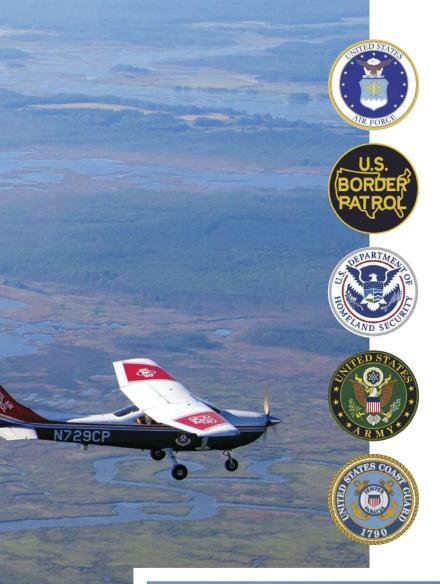

#### **Operation Noble Eagle**

Intercept training with CAP aircraft acting as targets of interest is an important readiness exercise that occurs nationwide. In addition to the nation's capital, temporary flight restrictions occur almost daily, requiring local defenders to act.

#### **Diverse Training Capabilities**

orking as a team, Civil Air Patrol aircrews participate in joint training exercises and play a key role as a training partner.

#### Total Force Partner

n its role as the Air Force auxiliary, Civil Air Patrol conducts air defense training and other critical homeland security missions for America. More than 75% of CAP's flying hours in 2022 were on Air Force-assigned missions.

#### **JSTARS**

CAP aircrews participating in the Joint Surveillance Target Attack Radar System (JSTARS) play a key role in the proficiency training of airborne battle managers.

## Disaster Response

#### Flexible Versatile Professional

Requests from local, state, and federal agencies for high-definition photographic, video, and other digital visual assets are assigned to more than 5,300 aircrew members operating CAP's fleet of fixed wing aircraft and small unmanned aerial systems.

#### The "Go-to" Resource

State, local, and federal agencies
Call Civil Air Patrol as a versatile
post-disaster resource and to help find
downed aircraft, lost or injured hikers,
stranded motorists, adrift boaters, missing
persons, or people trapped by rising water,
advancing forest fires, and more.

This CAP radar analysis of a plane crash at sea helped the U.S. Coast Guard rapidly locate the survivors in the vastness of the ocean.

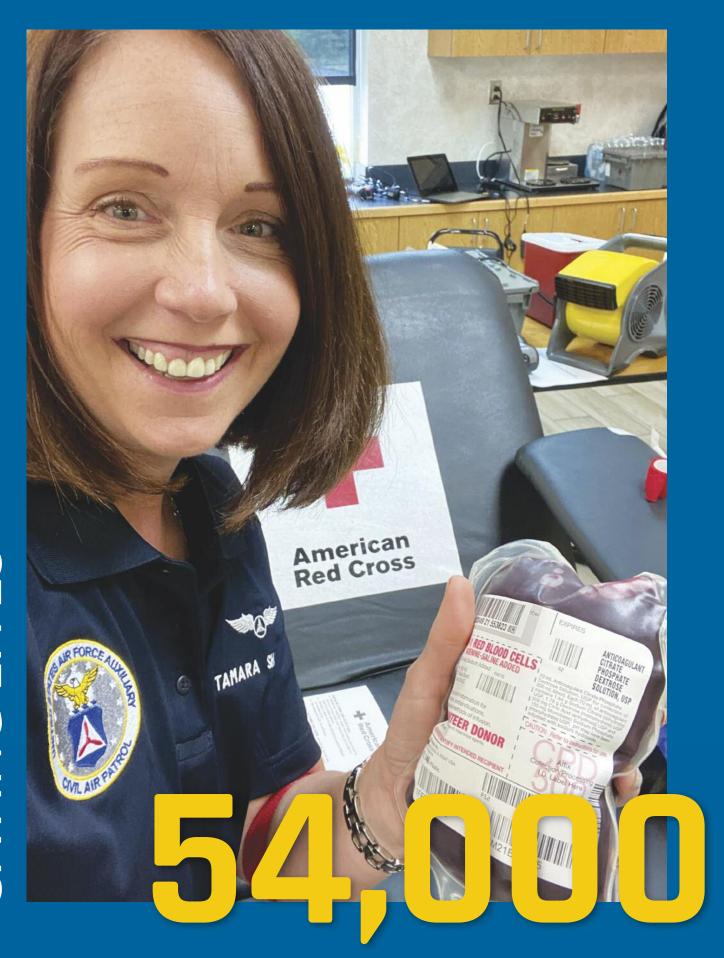

#### **Lifesaving Technology**

sing proprietary cellphone forensics and radar analysis technology (used in 95% of 525 searches in 2022), CAP was credited with saving 151 lives — making it one of the most successful years ever for the U.S. Air Force auxiliary's search and rescue efforts.

The three survivors of this crash, one with a broken back, would have perished due to exposure and hypothermia overnight without the coordination of CAP's innovative radar analysis and cellphone forensics teams.

## Operation Pulse Lift

#### **Humanitarian Missions**

Transporting medical supplies, operating emergency blood donation centers, and distributing food, water, and other essential items following natural disasters are examples of compassion missions CAP members routinely execute.

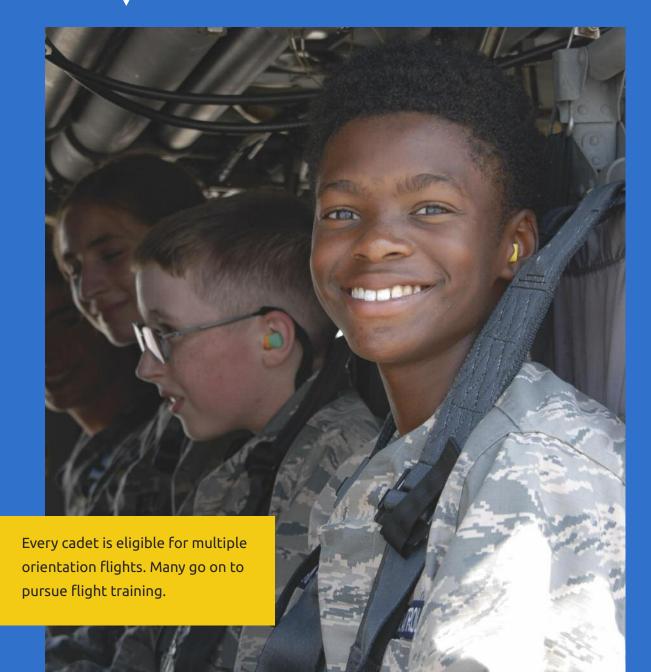

Civil Air Patrol's Operation Pulse Lift mission illustrates volunteers' efforts to serve their communities and save lives. By year's end, the effort launched to assist the American Red Cross in response to the COVID-19 pandemic had marked its 1,000th mission day, and more than 18,000 units of blood had been collected.

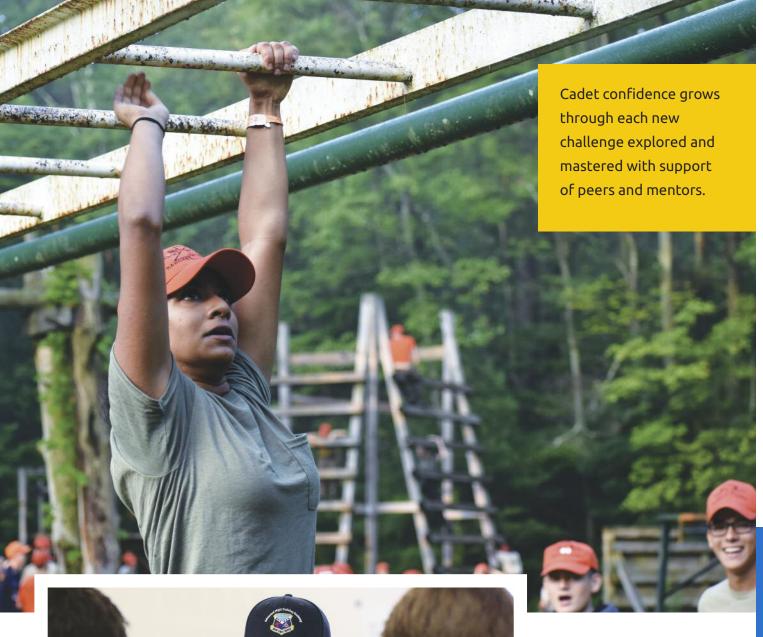

### **More Lives Saved**

## 25,365 cadets

#### **Adventure Abounds**

AP cadets experience the thrill of aviation and participate in a wide variety of activities like cybersecurity, honor guard, engineering, flight training, lifesaving and survival techniques, search and rescue, and more.

Hands-on activities provide CAP cadets with exposure to potential career opportunities.

### Servant Leadership

#### **Developing Tomorrow's Leaders Today**

or youth ages 12-18, CAP's breadth of programs helps develop the traits that tomorrow's civic, military, and business leaders need to be successful — confidence, character, physical and mental fitness, compassion, problem-solving abilities, and a sense of community and servant leadership.

#### Youth Engagement and Growth

rom weekly meetings, to weekend activities, to special activities and encampments, the CAP cadet experience is more dynamic than any other youth development and leadership program in the country.

Cadets serve their communities at a distribution center for essential supplies in the wake of natural disaster.

## Diversity - Equity - Inclusion

#### **Youth Aviation Initiatives**

civil Air Patrol's contribution to the nation's looming pilot shortage leverages the world's largest fleet of single-engine aircraft and experienced instructors.

CAP offers programs that take interested and qualified cadets from orientation flights to flight academies, through private pilot training.

#### **Outperforming the General Aviation Industry**

C AP is making flight training a reality for many who may never have dreamed of becoming a pilot.

	CAP Cadet Wings	General Aviation
Female	21%	17%
Male	79%	83%
BIPOC*	24%	14%
White	76%	86%

<sup>\*</sup> Black, Indigenous, and People of Color

#### K-12 Curriculum

The curriculum Civil Air Patrol provides for K-12 classrooms nationwide includes hands-on learning.

Educational products
developed by CAP are
making an impact on
hundreds of thousands
of students each year,
including many in America's
Title 1 schools.

Teachers also experience the thrill of flight with orientation rides that sometimes fly over their schools so they can broadcast the experience to the students below.

## STEM Kits

#### STEM Kits for Ages 4+

wenty-two different STEM Kits are available free of charge to a growing number of cadets and Civil Air Patrol teacher members.

Kits focus on hydraulic, robotics, coding, flight, engineering, astronomy, rocketry, renewable energy, navigation, electronics, and more.

CAP cadets also benefit from the STEM Kits. The kits are credited with increasing their interest in STEM as well as aerospace/aviation.

#### **Bee Bots**

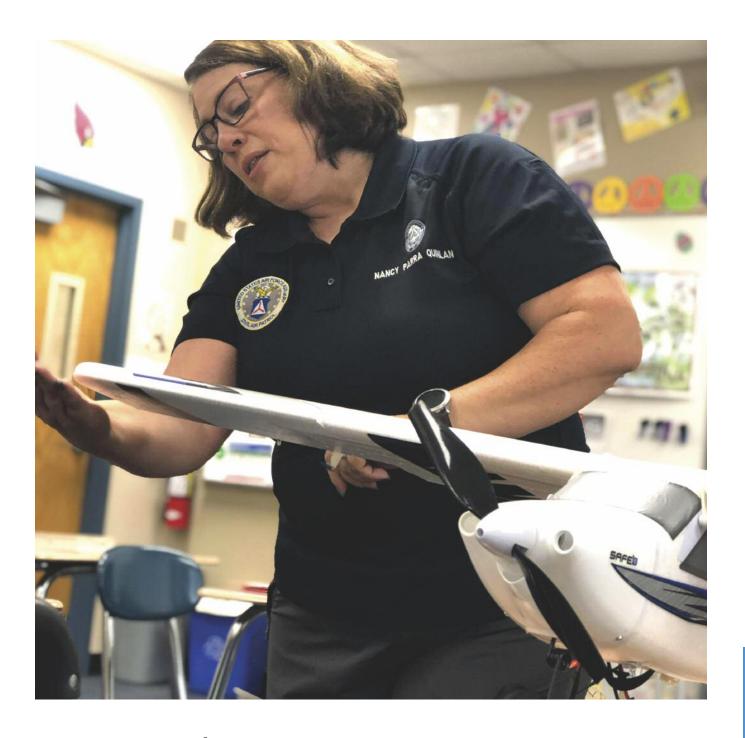

About 80% of the K-12 students who use the STEM Kits in their classrooms say they too are interested in aerospace and aviation careers.

## Classroom Support

#### Aerospace Connections in Education (ACE)

The ACE program uses CAP's aerospace theme and integrates academics, character, and physical fitness. Nearly 85,000 students participated in the ACE program school year — a 41% increase.

#### **ACE-Plus**

his program connects Civil Air Patrol squadrons to classrooms to provide aerospace/STEM support, student mentorship, and an introduction to CAP. Students involved in this squadron adoption program share in the benefits and growth opportunities of the cadet program like leadership development, flight training, and more.

#### **Mission Types**

#### **Joint Training Participation**

- Operation Green Flag East and West
- Operation Noble Eagle
- Joint Surveillance Target Attack Radar System (JSTARS)
- Surrogate Remotely Piloted Aircraft (SRPA)
- Low-level route surveys
- Southern border patrol for Task Force North
- AeroNET Communications Networking

#### Other Military Missions

- Naval vessel escort
- SUAS airbase counter threat
- Test mission support (e.g., providing targets for military sensors to find)
- Base security and planning support
- Transporting military personnel (e.g., Coast Guard Operation Nome and medical support to remote Alaskan communities)
- Base fire patrol
- · Various nonpublicized sensitive missions
- HF communications support

#### **Flight Training Missions**

- Orientation flights (CAP, Junior ROTC, and ROTC)
- Flight academies
- Cadet Wings (CAP)
- Rated Preparatory Program (Air Force)
- Certificated flight instructor program
- Remote pilot training and recurrency (small Unmanned Aerial System)
- Pilot proficiency and recurrency training
- Mountain flying clinic

#### Search and Rescue Missions

- Air and ground teams
- National Cellphone Forensics Team search
- National Radar Analysis Team search
- Small Unmanned Aerial System search
- Sundown coastal, river, and bay patrol

#### **Emergency Services (technology)**

- High-definition imagery and video
- Light Detection and Ranging (LIDAR 3D scanning)
- Forward Looking Infrared (FLIR)
- MX-15 sensor ball
- Geospatial capabilities (orthomosaic)
- Cellphone forensics
- Radar analysis

#### **Other Emergency Services Missions**

- Wildfire damage photography (air and ground)
- Flood damage photography (air and ground)
- Hurricane damage photography (air and ground)
- Tornado damage photography (air and ground)
- Earthquake damage photography (air and ground)
- Ice dam photography (air and ground)
- Tsunami warning system (airborne)
- Airborne communications relav

#### Miscellaneous Missions

- Teacher Orientation Program (TOP) Flights
- Operation Pulse Lift (blood collection and transport)
- Community service (staffing distribution centers)
- Supplies and equipment delivery
- Nationwide and state communications networks (FM, VHF, and HF)
- Training service dogs for air transport
- Bird migration tracking

#### **Mission Diversity**

ivil Air Patrol's diverse corps of 60,000 auxiliary airmen, adults, and youth volunteers completes a wide array of missions requested by local, state, and federal agencies.

In addition to the more than 540 aircraft and 1,000 vehicles, CAP has more than 2,250 small Unmanned Aerial Systems like this one being deployed by a CAP member. Small drones can be used when weather is too poor to fly or in areas that may be otherwise unsafe for aircraft or personnel.

### **Cadet Special Activities**

#### **Unparalleled Opportunities**

ivil Air Patrol cadets have opportunities to explore interests and possible career options, develop and hone leadership skills, be mentored by professionals from all walks of life, and serve their communities, unlike participants in any other youth program.

Wildfire response; tornado response; Green Flag; RPA escort operations; air defense intercept training; Joint Task Force North Border Operations; Rated Preparatory Program; Hurricane Fiona; Hurricane Ian

#### **Cadet Flying**

30,920 CAP, Air Force ROTC, and Junior ROTC cadet orientation flights

civil Air Patrol is a unique public service organization of national interest to Congress.

- CAP is a congressionally chartered, federally funded, nonprofit corporation and the civilian auxiliary of the United States Air Force.
- Operating in every state and thousands of communities, CAP conducts Air Forceassigned missions, emergency services, disaster response, community youth programs, and aerospace education.
- CAP is comprised of aviation-connected volunteer professionals and engaged community members from a wide range of backgrounds and professions.
- CAP programs and missions involve highly skilled personnel, low-cost aircraft and vehicles, specialized communications, and advanced imagery, and other technologies.

Volunteers serving America's communities, saving lives, and shaping futures.
