

A panoramic mountainside view may be some people's happy place, and window systems are growing increasingly sophisticated to meet the demands of extreme climates and the design aesthetics of discriminating architects, interior designers and their clients.

PELLA
Architect Series
www.pella.com

Architect Series Modern wood windows offer sleek designs with large expanses of glass. The materials palette above illustrates how the modern hardware finishes relate with popular materials in a contemporary design aesthetic.

A design palette shows hardware finishes relate to modern materials and design aesthetic.

Pella Architect Series Reserve features historically accurate, finely detailed sash and grille profiles.

EnduraClad exterior finish protects the window from the elements. A satin black interior is an option for a factory finish.

Four hardware styles: classic, modern, rustic and essential, in multiple finishes give 28 options for hardware fitting of the design.

FINISHING TOUCHES
March marks the official launch of Pella's new Architect Series Collection. A standard Pella Product enhances the built environment with deliberate details, such as new finish levels and redesigned hardware. **Circle 399**
