

CES 2020

# DriveCore™ Studio Cloud

## Automated Driving Solution

### Features:

- End-to-end ADAS/AD continuous improvement cycle
- Intuitive web-based UI
- Cloud-based virtualized hardware
- Global test fleet integration and connectivity
- Data lake for global data sharing
- Cloud-based AI training and development
- OEM privacy, branding and billing

### Benefits:

- Global, collaborative, cloud-based platform enabling rapid ADAS/AD development
- Integrated test fleet and production fleet application management
- Centralized data management
- Algorithm store
- Scalable machine learning
