

SmartCore™ Entry

Digital Integrated Cockpit Solution

Features:

- Entry integrated cockpit controller focused on value
- Single SoC
- Supports domains including infotainment, connectivity and instrument cluster
- Single display environment
- Android OS with Visteon middleware
- No hypervisor

Benefits:

- Integrated cockpit architecture for the entry market segment
- Enhanced HMI
- Extended lifecycle through feature adds/upgrades via app store
- Minimized third-party software royalties
- Simplified packaging
