

Visteon®

Intelligent electrification **enabled.**

Visteon is a leader in integrated electronics for electrified vehicles.

Visteon Electrification Portfolio

CES PROPERTIES

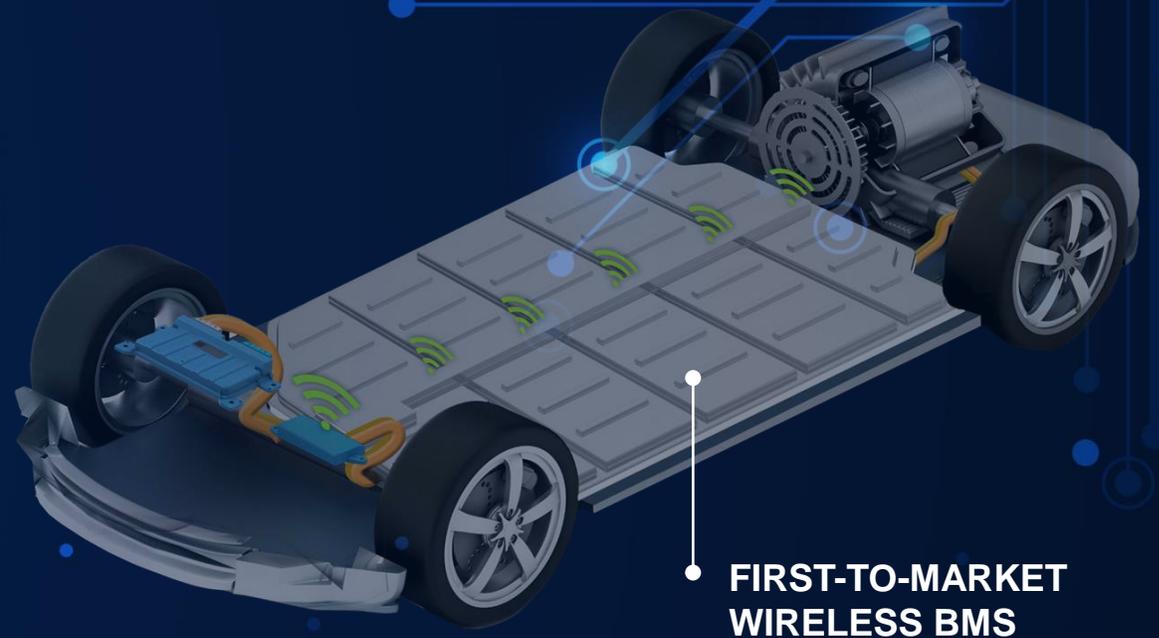

SMART BMS

Visteon's innovative battery management systems facilitate a safer driving experience by continuously monitoring and wirelessly reporting on battery state of health and charge.

- Increased battery **range** and overall **safety**
- **Compatible** with any electric vehicle architecture on the market
- **Wired** and **wireless** systems available
- **Smart CSC** adds extra processing capabilities to the BMS to detect thermal propagation events and deliver advanced diagnostics and trend analyses

Visteon Electrification Advantage

We have a passion for **innovation** and a clear vision for the future of electrification.

FIRST-TO-MARKET
WIRELESS BMS

Visteon®

Visteon Electrification Advantage

We are a **proven leader** in automotive electronics, with advanced BMS solutions in production today.

21

YEARS OF
ELECTRIFICATION
EXPERTISE

Visteon®

Visteon Electrification Advantage

We're an agile, customer-centric organization with **robust manufacturing** capabilities.
